\*UCAS data could not be used for "Other" and has been excluded from 2018-2021 totals and targets

February typically reaches 40-50% of the total number recruited. The 6,000 with offers on DfE Apply in Feb 2023 could mean reaching 14,000 by September.

No DfE targets have been released for 2023-24 ITT. The predicted success (67%) is based on repeated Secondary targets for 2022-23; it is believed the targets will be increased.

Overall, Secondary is **+2%** on last year's recruitment by February but **-15%** down on the mean of the four prior recruitment rounds.
